

CUSTOM FURNITURE SPECIALISTS

Commercial Systems
Australia Pty Ltd

ABOUT US

Commercial Systems Australia (CSA) is an Australian manufacturer and fit out contractor of landscape, street and park furniture systems. We are based in Melbourne and proudly service customers throughout Australia and globally.

DESIGN

We pride ourselves on providing the greatest range of products and designs. From seats, benches, drinking fountains, litter bins, bollards and bike rails, we offer a range of over 200 standard products and can custom design and manufacture to suit your project needs. Our team of Design Engineers will work closely with you to ensure custom products meet our highest quality standards, and preserve your design integrity. No project is too big or small.

MANUFACTURE

All CSA products are designed and manufactured to compliment and withstand the harsh Australian environment.

INSTALL

Commercial Systems Australia Pty. Ltd. installation teams have successfully undertaken projects from the largest shopping centres to full streetscape and mall construction. Our experienced installers have the expertise and equipment to carry out every type of site installation.

*Proudly Australian Owned,
Australian Made.*

PRODUCT SPECIFICATIONS AND INSTALLATIONS

This brochure is intended to provide you with a brief introduction to our products and services.

We encourage you to visit our website where you can:

- Download product specification sheets and installation drawings
- Request a quote
- View recent projects and news
- Learn about our custom design and manufacture capabilities.

OUR ENVIRONMENTAL PLAN

Commercial Systems Australia are committed to undertaking business in a manner that recognises the importance of environmental protection and sustainability. We are committed to minimising our environmental impact and have a management system in place to assist this process.

To minimise our carbon footprint we offer customers a selection of recycled timber, recycled plastic and sustainable forestry timber products.

ENVIROSLAT COMPOSITE RECYCLED PLASTIC

Commercial Systems Australia Pty. Ltd. developed EnviroSlat, a composite recycled plastic batten for use on our standard and custom range of public furniture. EnviroSlat is more durable and long lasting than timber and offers a great price point for customers.

EnviroSlat has the look of timber with a natural embossed grain. Our colourway, Copper Brown has been inspired by a blend of Australian Hardwood timbers.

Developed for Australian use, EnviroSlat can be used as an alternative to timber on our standard timber and metal range of furniture. That is over 100 different products to choose from including seats, picnic settings and litter bin enclosures.

BENEFITS OF ENVIROSLAT

- Diverts plastic, rice husk and timber waste from landfill.
- Low maintenance and resistant to weathering.
- No painting or staining is required as the colour is built into the product.
- UV resistant so the base colour will not fade.
- Will not split or rot and is termite resistant.
- High resistance to vandalism
- Anti graffiti coatings can easily be applied.
- Fantastic low price.

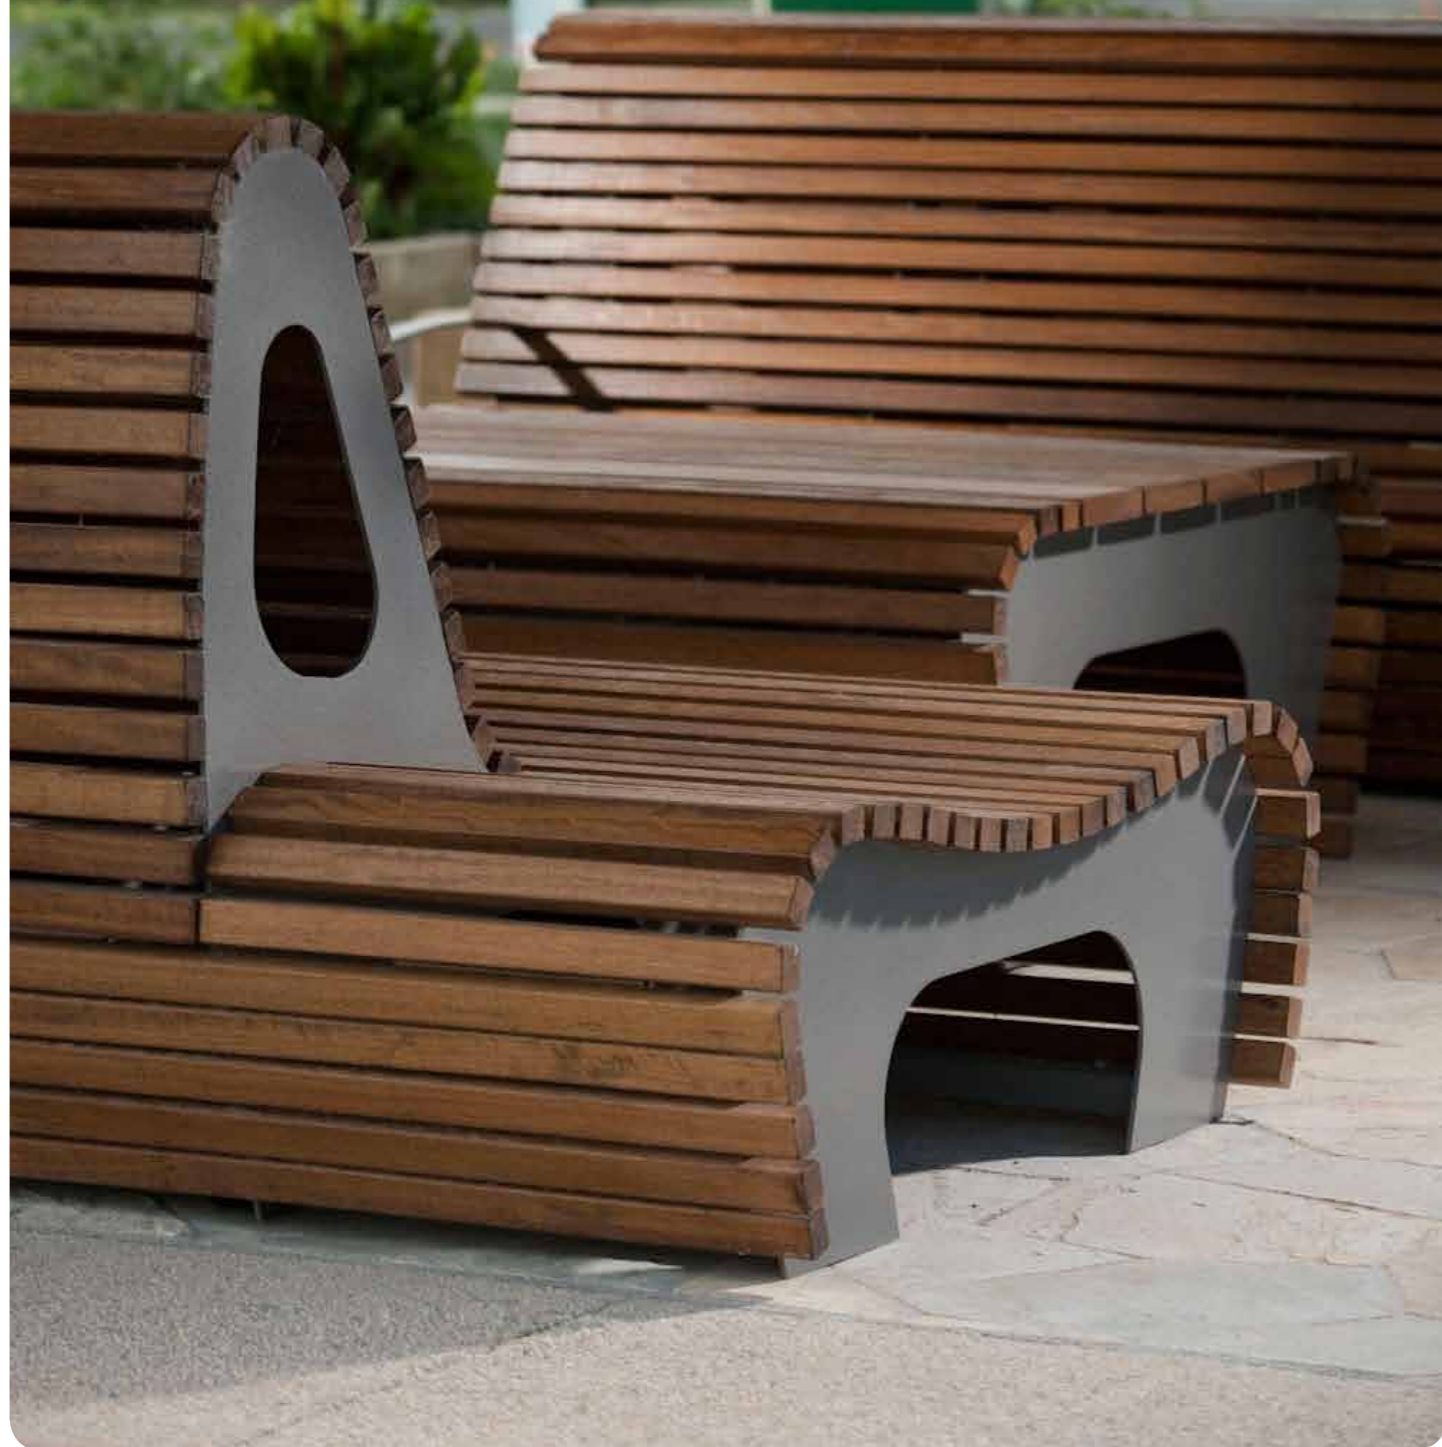

SUSTAINABLE TIMBER

CSA do not support the logging of international forests. We believe in sustainable forestry and source timbers from Australian managed forest only.

Our standard Blackbutt timber is certified ASF. The objective of the Australian Forestry Standard is to provide forest managers and owners with economic, social, environmental and cultural criteria and requirements that support the sustainable management of forests for wood production.

Commercial Systems Australia also offer customers a selection of recycled or reclaimed timbers for use on bespoke or standard furniture products.

SEATING AND PICNIC SETTINGS

CUSTOM CAST FURNITURE

Develop an exclusive range of cast aluminium end frames for seating or picnic settings. Create unique landscapes through our full custom design and manufacture service. It's easy and it is more affordable than you think.

After your initial investment of 20 units, there are no minimum order requirements.

All our castings are made here in Australia.
