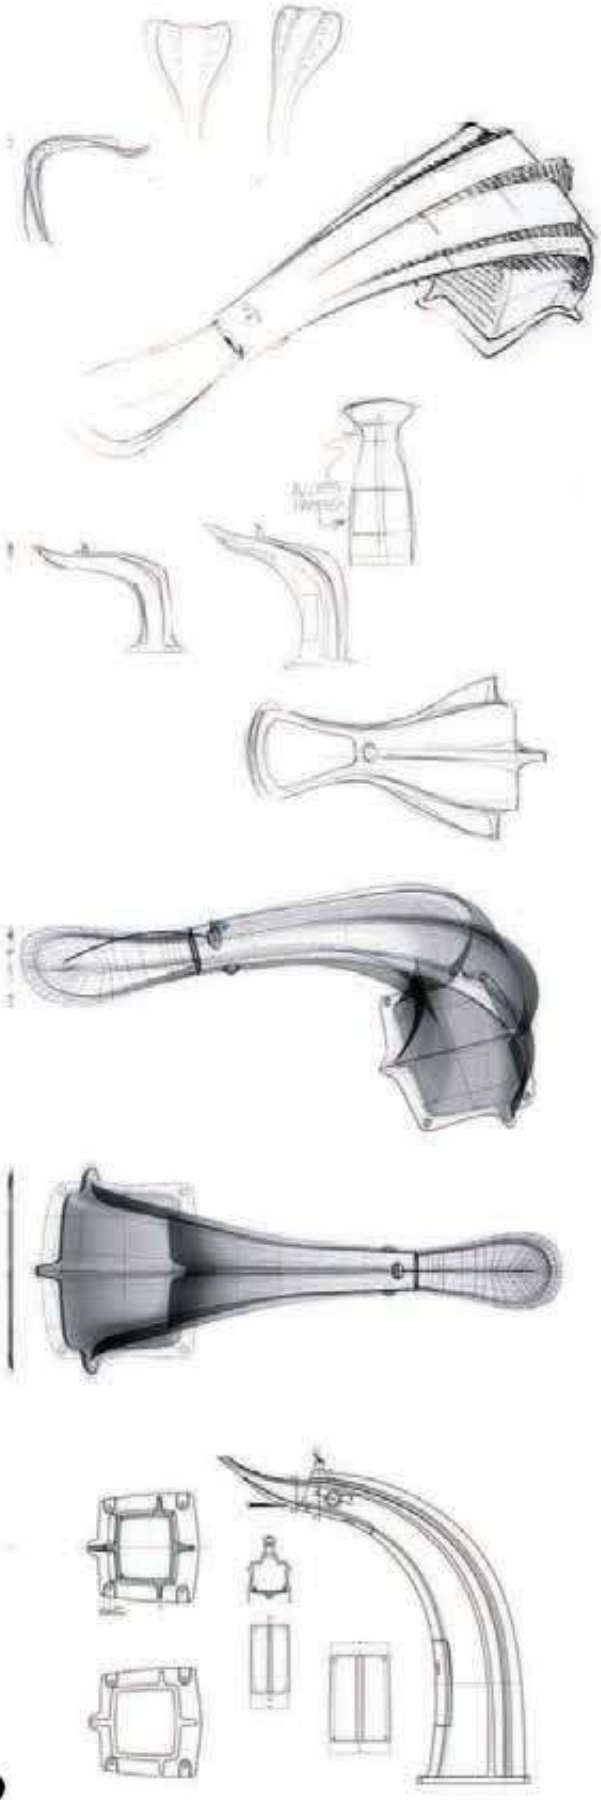
Commercial Systems
Australia Pty Ltd

Leading in Creative Design - Product Development - Manufacturing Technologies



At Commercial Systems Australia we dare to think outside the square. Listening to your ideas and aspirations we handcraft award winning street furniture solutions and more.

Our unique mix of design and manufacturing technologies allow us to create amazing furniture and structures to make the clear statement that your project is unique.

We have our own dedicated design team utilising 2D and 3D CAD design suites to bring your ideas to life. This flexibility allows you to break free from the standard street furniture styles.

So if you are looking outside of the square and you need a partner to design and manufacture or just need something a little different, please give us a call.

About Us

Commercial Systems Australia have been the proud manufacturers of public furniture items for over 20 years. With customers throughout Australia, New Zealand, South East Asia and United Arab Emirates, wherever people meet, you will find attractive, durable, public furniture produced by Commercial Systems Australia Pty Ltd. Designers, manufacturers and installation contractors of quality public furniture for:

- Shopping Centres
- Streets and Malls
- Schools and Universities
- Sporting Venues
- Entertainment Centres
- Parklands

DESIGN

Commercial Systems Australia Pty. Ltd. employs qualified Designers, Engineers and Interior Designers to assist in the development of concept ideas through to full computer aided shop drawings. Trained in the finer skills of shape, materials, ergonomics and colour, our design staff offer the opportunity for unique furniture to suit your project.

MANUFACTURE

Skilled timber and architectural metal workers combine select quality materials and the most modern tooling and machinery to produce public furniture to the highest world standards. Manufactured in our factory in Melbourne.

INSTALLATION

Commercial Systems Australia Pty. Ltd. installation teams have successfully undertaken projects from the largest shopping centres to full streetscape and mall construction. Our experienced installers have the expertise and equipment to carry out every type of site installation.

Proudly Australian Owned, Australian Made.

Quality Policy Statement

Commercial Systems Australia Pty. Ltd is committed to providing products and services of world-class quality standards. We always recognise the quality required by our customers and will guarantee those standards by:

- Using skilled labour, quality materials and first class machinery at all times.
- Continually training our staff to improve and develop their manufacturing skills.
- Develop and maintain a close liaison with our customers to ensure total understanding of their requirements.
- Continual review of design, materials and production techniques to ensure our products are manufactured to acceptable world standards.

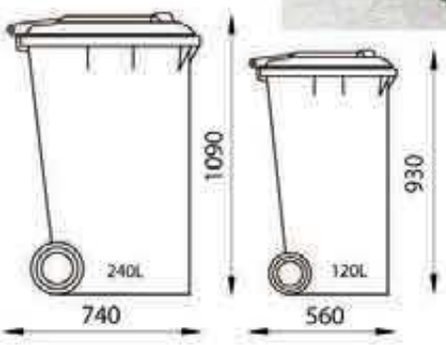
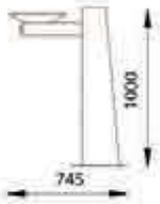
Available in 12 different colours. Also available Standard 240 litre Wheely Bin LR 6502.



Designed for long term performance, Commercial Systems Australia Drinking Fountains provide a wide range of options to suit all types of applications. Drinking Fountains include internal plumbing and are ready for connection to services through the inspection doors. All connection work should be carried out by a licensed plumber.

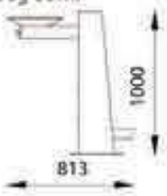
DF 5001
Plaza Drinking Fountain

Tapered pedestal in stainless steel or powdercoated mild steel. Stainless steel arm, bowl and bubbler.



DF 5001
Plaza Drinking Fountain with Dog Bowl

Tapered pedestal in stainless steel or mild steel. Stainless steel arm, bowl and bubbler. Plus Dog Bowl.

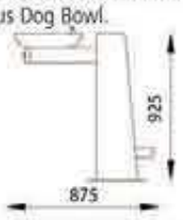


DF 5002
Portsea Drinking Fountain

Tapered pedestal Drinking Fountain. Stainless steel arm, covered bowl and bubbler.

DF 5002
Portsea Drinking Fountain with Dog Bowl

Tapered pedestal Drinking Fountain. Stainless steel arm, covered bowl and bubbler. Plus Dog Bowl.



DF 5035
Maroondah Drinking Fountain

Fabricated steel pedestal and stainless steel bowl. Designed for wheelchair access.

Commercial Systems Australia Wheel Chair friendly range of Drinking Fountains.

Optional features:
- Dog Bowls
- Side Taps
- Wall Mounted

DF 5040
Banyan Drinking Fountain

Heavy cast aluminium pedestal and bowl. Easy side button activation. Optional dog bowl as DF 5041.

DF 5041
Banyan Drinking Fountain

Heavy cast aluminium pedestal and bowl. Easy side button activation. With Dog Bowl.

DF 5005
Standard Drinking Fountain

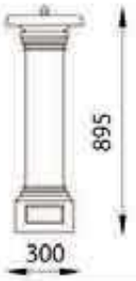
Perforated pedestal in mild steel or stainless steel. Stainless steel bowl.

DF 5006
Park Drinking Fountain

Heavy mild steel pedestal with stainless steel bowl.

DF 5010
Heritage Drinking Fountain

Cast base with mild steel pedestal and stainless steel bowl.

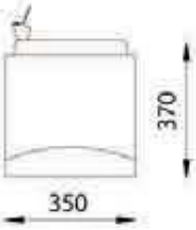


DF 5015
Boulevard Drinking Fountain

Perforated pedestal in mild steel or stainless steel. Stainless steel bowl.

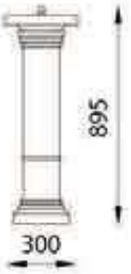
DF 5020
Wall Mounted Drinking Fountain

Stainless steel body and bowl mounted to wall.



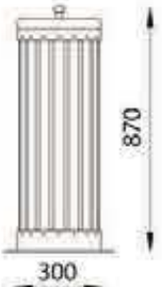
DF 5025
Brentford Drinking Fountain

Cast aluminium pedestal and base with stainless steel bowl.



DF 5030
Timber Slat Drinking Fountain

Steel framed with hardwood slats and stainless steel bowl.



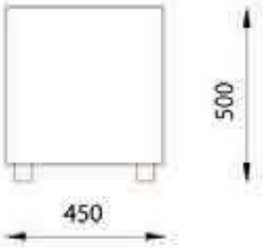
DF 5055
Te Ari Drinking Fountain

Steel framed with hardwood slats and stainless steel bowl.

Select from our wide range of Planters or have Commercial Systems Australia custom manufacture to your specification to suit your individual requirements.

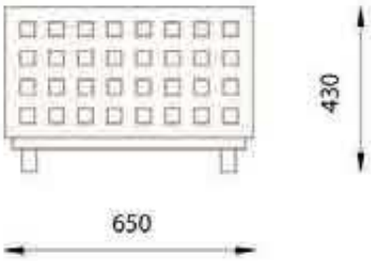
PB 1500
Stainless Steel Planter

Brushed or mirror polished body. Galvanised inner stainless steel liner.



PB 1531
Perforated Planter

Perforated mild steel Planters with galvanised inner liners. Available in any size and configuration.



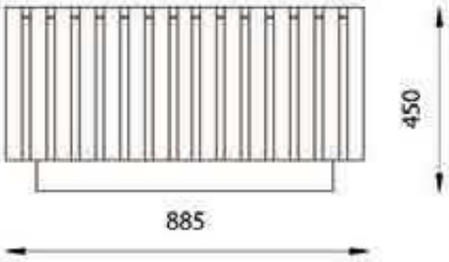
PB1540
Stainless Steel Cylindrical Planters

Brushed or mirror polished body with spun aluminium ring.

PB 1540 305 mm Ø x 410 mm high.
PB 1541 406 mm Ø x 410 mm high
PB 1542 457 mm Ø x 410 mm high
PB 1543 534 mm Ø x 410 mm high
PB 1544 610 mm Ø x 410 mm high
PB 1545 762 mm Ø x 410 mm high
PB 1546 235 mm Ø x 300 mm high
PB 1547 330 mm Ø x 400 mm high
PB 1548 450 mm Ø x 400 mm high

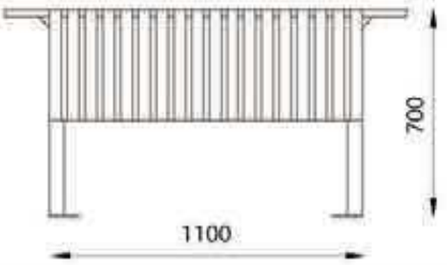
PB1560
Square Mild Steel Slat Planter

Powdercoated mild steel Planter with recessed base and adjustable feet. Galvanised inner liner.



PB 1563
Rectangular Mild Steel Planter

Powdercoated mild steel slat Planter with legs and galvanised inner liner.

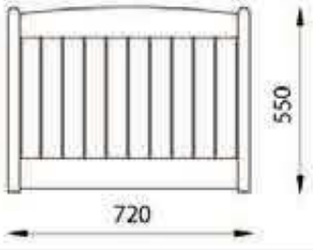


PB 1566
Steel Frame Timber Planter

Steel framed Planters with hardwood slats. Galvanised inner liner.
PB 1565 size 525mm x 525mm x 495mm high
PB 1566 size 685mm x 685mm x 605mm high.

PB 1567
Solid Vic Ash Planter

Available in Vic Ash (internal use) or Jarrah (external use).
Available with arched or straight top.



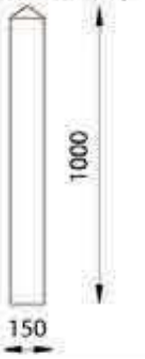
PB 1570
Solid Jarrah Planter

Available in Jarrah (external use) or Vic Ash (Internal use).
Available with arched or straight top. Planter to compliment solid timber seats type TM 4150 and TM 4153.

Bollards to protect, direct and connect to the design elements of every streetscape project. Available as fixed, removable or hinged in a variety of colours and finishes.

SB 2002
Pyramid Top Bollard

Solid Jarrah or Cypress Pine. Signwritten if required. Optional inset collars, chain lugs and reflectors. Also available with dome top.



SB 2005
Standard Traffic Bollard

Steel capped or concrete filled. Optional chain lugs. Signwritten or reflective bands if required.

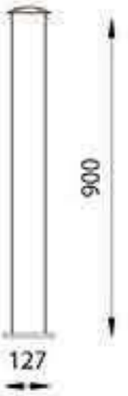
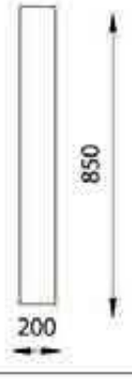
Smokers Bollard

Stainless steel spring loaded smokers Bollard with stainless steel dome top. Key locked.



SB 2076
Triangular Bollard

Triangular steel tube Bollard with flat top. Also available with tapered top. Polished stainless steel finish.



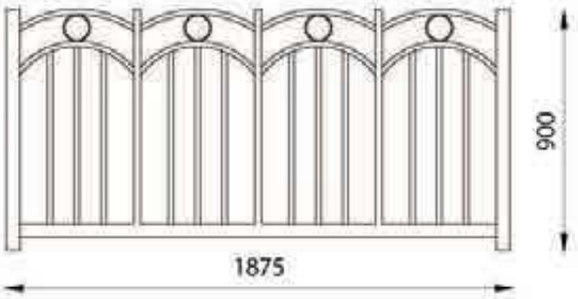
SB 2085
Glen Eira Bollard

Mild Steel RHS removable bollard with galvanised cap top.

Control foot traffic around shopping centres, schools, railway stations and park areas. Ask us how we can design barriers, fencing and café screens to suit your requirements.

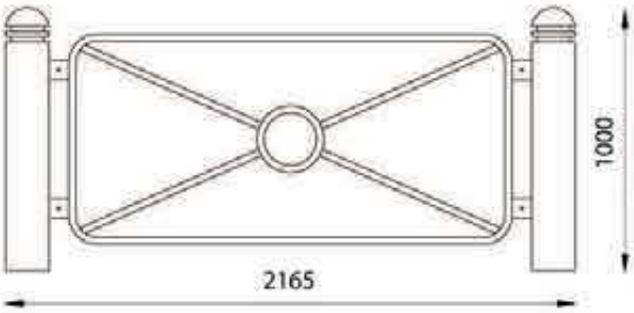
BA 8000
Village Pedestrian Barrier

Tubular steel modular Barrier compliments the Village Bench TM 4195, Litter Receptacle LR 6136 and Tree Guard TG 1061.



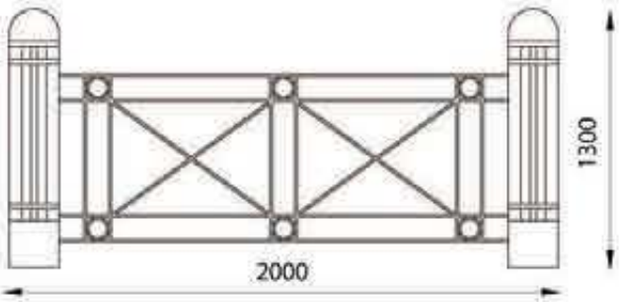
BA 8010
Circle Pedestrian Barrier

Tubular steel modular Barrier with SB 2015 Bollard Posts. Compliments Tree Guard TG 1051.



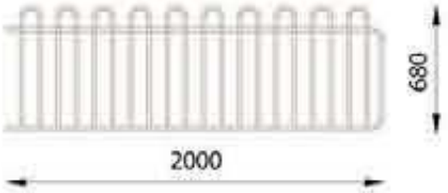
BA 8015
Barkly Style Barrier

Steel Barrier modules with SB 2041 Bollard Posts.



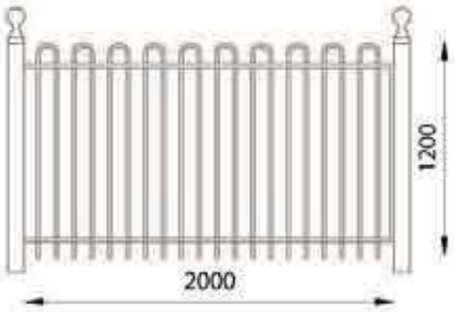
BA 8020.1
Standard Pedestrian Barriers

Standard tubular steel frames with looped mild steel tube.



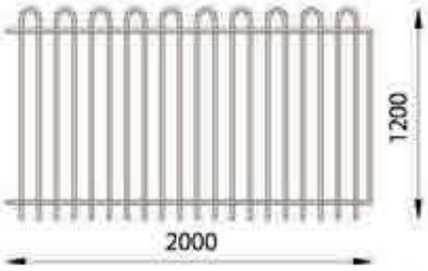
BA 8020.2
Cast End Pedestrian Barriers

Feature cast end posts with looped mild steel tube.



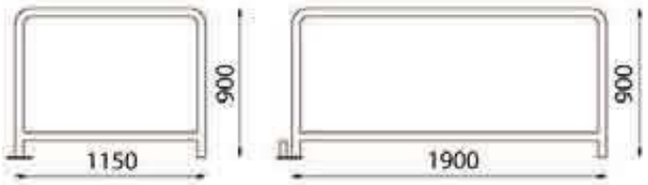
BA 8020.3
Capped Post Pedestrian Barriers

Capped posts with looped mild steel tube.



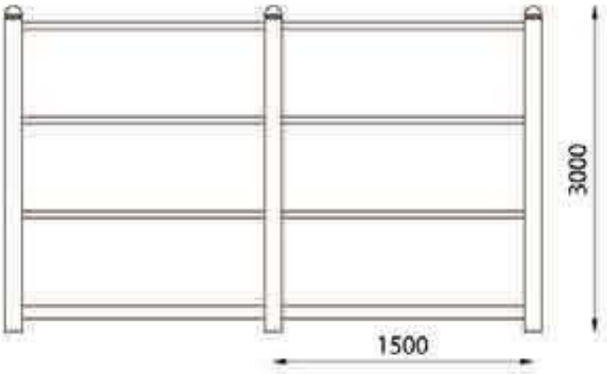
BA 8030
Café Barriers

Commercial Systems Australia standard polycanvas Café Barriers
Length 2000mm, Height 900mm.
Available as lace tied or slide on to tubular frames.



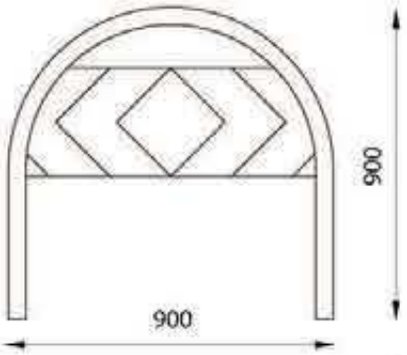
BA 8035
Glen Waverley

Wall style glazed panels for wind protection.



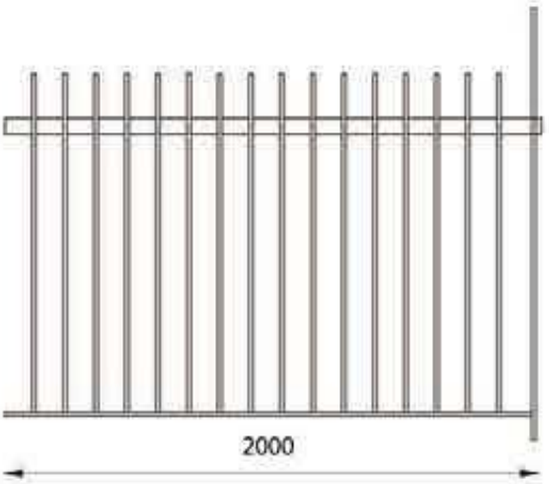
BA 8040
Bike Path Chevron

Galvanised mild steel pipe with inset directional sign.



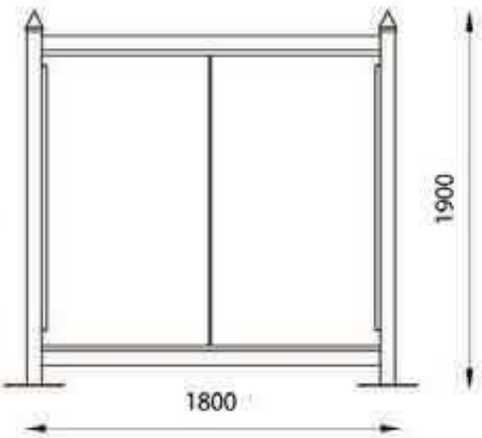
BA 8045
Carlton Fence

Laser cut steel plate fins provide a very different style of Barrier.



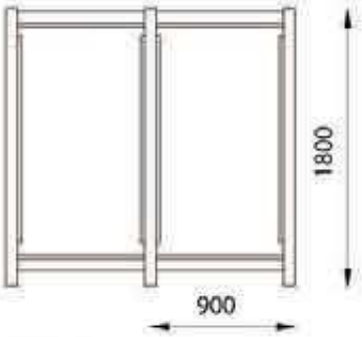
BA 8050
Transit 1 Style Glazed Screen

Feature post tops.
Wall style glazed panels providing wind protection.



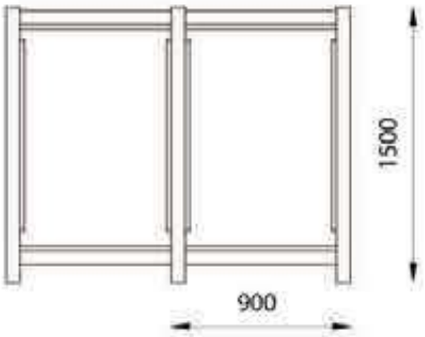
BA 8055
Transit 2 Style Screens

Mild steel RHS frame with flat posts and glazed panels.



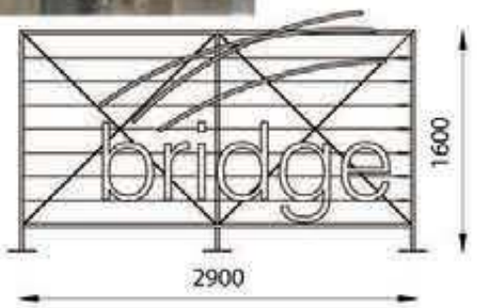
BA 8060
Glazed Café Barriers

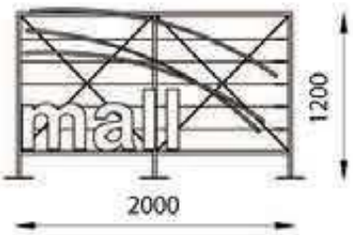
Mild steel RHS frame with safety glazed panels.
Available with hinged end panels.



BA 8065
Custom Barrier

Custom design and manufactured stainless steel Pedestrian Barrier with precinct signage.





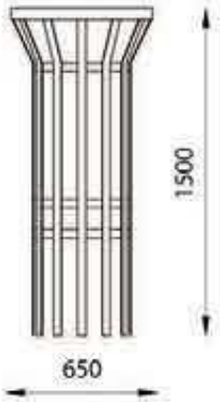
A range of Tree Guard designs are available to suit all situations. Tree Guards are supplied in two halves for easy installation. Optional bases for fixing to grates, ground frames or concrete.

TG 1005
Standard Tree Guard

Mild steel slat Tree Guard. Available with a straight, flared or rolled top.

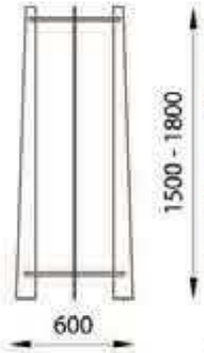
TG 1007
Flared Top Tree Guard

Mild steel slat Tree Guard.



TG 1008
Plaza Tree Guard

Tapered mild steel fins with connecting tubular top and base.



TG 1035
Olympic Village Tree Guard

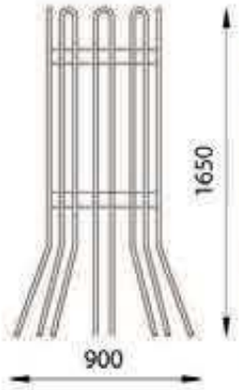
Rolled vertical rods with connecting flat plate rings.

TG 1040
Victorian Tree Guard

Steel tube Tree Guard with choice of feature cast aluminium tops.

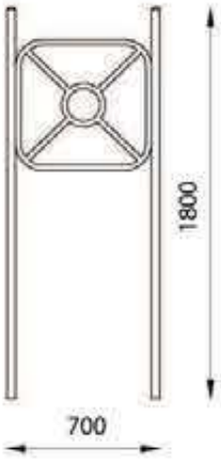
TG 1045
Bayside Tree Guard

Mild steel looped rod Tree Guard with flared base.



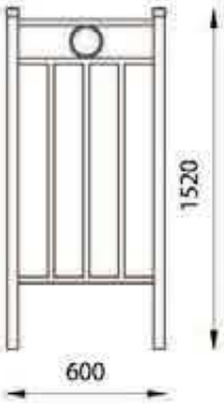
TG 1051
Frankston Tree Guard

Square Tree Guard in mild steel.



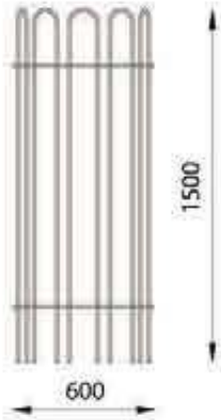
TG 1061
Xavier Tree Guard

Square Tree Guard in mild steel.



TG 1072
Looped Tree Guard

Mild steel looped rod Tree Guard.



TG 1070
Nouveau Tree Guard

Cast aluminium Nouveau design Tree Guard.
